

Michael Doyle Associate, NAI Welsh

As an Associate in the Office Brokerage division of NAI Welsh, Michael Doyle specializes in providing quality leasing and sales services to commercial owners and tenants in the Minneapolis market. Within his first 18 months at Welsh, Michael worked with over 20 business owners in the downtown Minneapolis CBD, consulting them on leases, sales, and other property issues.

Working on behalf of both owners and tenants, Michael monitors individual space availabilities along with market rents, absorption, and vacancy trends, and uses this information to aid our clients in making informed real estate decisions. Additionally, Michael is involved with the preparation of proposals, presentations, and market reports, and he conducts property tours with clients who are searching for office space.

Michael first joined Welsh as an intern in both our property management and brokerage divisions. Through these experiences, Michael cultivated a well-rounded understanding of the commercial real estate industry. He currently focuses in the Minneapolis CBD, Warehouse District, and Loring Park.
