## AREA OF EXPERTISE

As a Senior Associate in Colliers International's Office brokerage department, Chad Anvary meets the commercial real estate needs of his clients with an emphasis in the Twin Cities market. Chad joined Colliers International (formerly Welsh NAI) in 1999 and started his brokerage career in Office Leasing, but in recent years, he has expanded his business to include land acquisitions and investments.

Chad has excellent analytical and technical skills which are critical to his role of providing market research data and analysis to clients. He assists in the site search and selection process, tenant representation, and the marketing of properties for clients.

In addition to working with landlords and tenants, Chad helps clients evaluate development opportunities. His educational training has included coursework in Urban Economics that has been relevant in working with city planners and developers. Chad is likewise instrumental in evaluating, assessing, and completing all of the components of the due diligence process required in property acquisitions and dispositions.

Through his work with the Kenwood Center, a 37,315-square-foot retail center in Lakeville, and his involvement in a number of development and build-to-suit projects for St. Cloud based SAH Partnership, Chad has developed a strong understanding of the unique needs of a retail center and an insider's familiarity with the St. Cloud market.
