AREA OF EXPERTISE

Dave Berglund is a Senior Associate at Colliers International. Dave works closely with other senior members of the office team to provide quality leasing and sales services to commercial owners and tenants in Minneapolis and the surrounding suburbs.

Dave provides accurate, up-to-date market research data and analysis to clients. Whether he is representing tenants or marketing properties for owner clients, Dave applies a hands-on approach to see his clients through every step of the commercial real estate process. A strong proponent of an honest, straightforward style, Dave relies on exceptional market knowledge to keep his clients well informed.

In addition to working with landlords and tenants, Dave helps clients evaluate development opportunities and complete all of the components of the due diligence process required in property acquisition.

Dave is an active member in the real estate community. Since joining Colliers International (formerly NAI Welsh) in 2004, he has sold over 20 buildings and completed over 600,000-square-feet in lease transactions.

"Dave's hard work and market expertise was instrumental in finding us our new headquarters. We couldn't be happier with the results."

-Brent Wilde, COO, Emergency Physicians Professional Association (EPPA)
