## AREA OF EXPERTISE

As a Senior Vice President of Colliers International, Peter Mork specializes in the sale and leasing of industrial properties in the Twin Cities commercial real estate market. Working on behalf of a variety of major developers, institutional owners, and Real Estate Investment Trusts (REITs), Peter and his team aggressively market properties as well as represent industrial tenants who are expanding, relocating or renewing their lease.

Peter leads the very successful Industrial brokerage team at Colliers International. The team has over 50 years of combined experience and has sold or leased over \$175 million in total consideration in the last five years.

Recently, Peter and business partner Jason Simek were tapped as industry experts to co-host the "All Things Real Estate" radio show on Clear Channel's 100.3 FM station in the Twin Cities. The show launched in January 2011 and features news, trends and issues affecting the real estate market in Minnesota.

Prior to joining Colliers International (formerly NAI Welsh) in 2005, Peter served as First Vice President for CB Richard Ellis' Minneapolis/St. Paul office.
