AREA OF EXPERTISE

A performance-oriented leader in brokerage who understands the complexity of the ever-changing retail industry, Terese Reiling Holden works diligently to assure financial growth in all the properties she represents, and to locate and secure properties that meet each of her tenant's financial and business needs.

Working on behalf of a variety of owners and developers, Terese identifies potential tenants for neighborhood, community, power center and mixed-use retail projects in addition to land sales and ground leases. Terese also represents retailers in their site selection within the Twin Cities' market. As an owner's representative, Terese represents development clients in the planning, design and layout of new projects. She also leases assets on behalf of large asset management and pension fund advisors, creating value at each respective property.

Terese has more than 15 years experience in commercial real estate brokerage, and is consistently recognized as one of Colliers International's annual top producers. Terese is an ethical, loyal and hard-working professional and was recognized by her peers for her commitment to excellence with nominations for Broker of the Year at the Minnesota Commercial Association of Realtors.
