AREA OF EXPERTISE

As a Senior Vice President specializing in Investment Sales, Tim Prinsen applies over 17 years of industry experience to help his clients sell and buy commercial properties. Over the years, Tim has handled leasing, development, acquisition and disposition of investment property for a wide range of property types. In the past eight years, Tim and his team have completed over 100 transactions for a total consideration of over \$640 million.

Tim is committed to total involvement in every stage of the disposition process, beginning with the financial and physical assessment of the property and current market conditions, and continuing through due diligence and closing. Attention to detail and exceptional follow-through have earned Tim and his team the respect, trust, and repeat business of clients.

Tim began his real estate career with Welsh in 1993. He left Colliers International (formerly NAI Welsh) in 1996 to serve as Vice President of Acquisitions and Development at Bradley Real Estate, where he led all aspects of commercial real estate transactions including acquisitions, construction, leasing and dispositions. In 2001, after the successful sale of Bradley Real Estate, Tim resumed his career at Colliers International.
