**PeopleNet Relocating Headquarters to
4400 Baker Road in Minnetonka**

MINNEAPOLIS, June 22, 2009 – PeopleNet, the leading provider of innovative Internet-based and integrated onboard computing and mobile communications systems for effective fleet management, announced today it will move their U.S. and corporate headquarters to 4400 Baker Road in Minnetonka. PeopleNet Canada will continue to be headquartered in Burlington, Ontario.

The company has signed a 10-year, 50,731-square-foot lease, and plans to take occupancy September 1, 2009. The newly renovated building at Interstate 494 and Hwy 7 is almost double the size of PeopleNet's current home, and will house 140 employees who will have access to all campus amenities, including: walking paths, a full-service cafeteria, large training rooms, underground parking and fitness and shower facilities.

Currently located in Chaska, PeopleNet decided to move their headquarters to Minnetonka to accommodate their stable growth. In making the announcement, PeopleNet CEO Ron Konezny explained, "After achieving record revenue and subscriber growth in 2008, we are expanding our operations in a number of areas. We are committed to delivering unmatched value, and in providing our customers with solutions and service to meet their unique challenges".

Founded in 1994, PeopleNet has earned its reputation as the leading provider of innovative technology products and services that help the transportation industry optimize fleet efficiency. The company was most recently recognized in *Food Logistics* magazine's "Top 100 Technology Solution Providers" and *Inbound Logistics*' "Top 100 Logistics IT Companies".

“With over 80,000 subscribers and over 100 new fleets signed last year, PeopleNet is financially strong and continues to grow as we celebrate our 15th anniversary,” Konezny added. “There is strong demand by all fleet types as they look for more advanced tools to help them operate at top efficiency.”

NAI Welsh Associate Evan Molde and Senior Vice President Ted Carlson represented PeopleNet. The building owners were represented by NAI Welsh Senior Vice President Jim Damiani and Vice President Bryan Beltrand. 4400 Baker Road is one of two existing buildings on this site. There is currently 12,500 square feet of remaining space available for lease at 4400 Baker Road and 10,000 square feet at 4350 Baker Road, the LEED-CS Gold-level pre-certified headquarters of Welsh Companies that was built in 2008. The site is also slated for a third 125,000-square-foot office building that will seek LEED certification.

“Baker Road Corporate Center has enjoyed tremendous leasing success due to its excellent visibility and easy access to major roadways and area amenities,” said Jim Damiani, Senior Vice President, Welsh Companies. “The 4350 building is 92% leased just one year after completion.”

About PeopleNet

PeopleNet is exclusively focused on providing innovative Internet-based and integrated onboard computing and mobile communications systems to improve North America’s trucking industry’s fleet management. Its products are used by nearly 1,500 truckload, LTL, private, and service fleets in the United States and Canada, including several Fortune 500 companies. Reputed for its customer-driven technological innovation, unparalleled flexibility, and proactive customer care, PeopleNet was the first major technology provider to offer Internet-based communications to the transportation industry 15 years ago. Since then, the company annually reinvests 100 percent of its profits into the business for aggressively developing new products that continue to improve fleet management. Industry recognition of the company’s leadership includes: *Inbound Logistics* Top 100 Award; *Food Logistics*’ 100 Top Technology Solutions and Service Providers; Frost & Sullivan Market Engineering Award; *M2M* Value Chain Award; and Minnesota’s Tekne Award. For more information about PeopleNet and its products and services, call (888) 346-3486, or visit www.peoplenetonline.com.
